

KYLE WASSERBERGER, MS, CSCS

I am currently a doctoral student in the [Sports Medicine & Movement Laboratory](#) at Auburn University researching mechanisms driving injury risk and performance in sport with an emphasis on baseball and softball players.

I am a former 4-year NCAA baseball pitcher. I have several years of coaching experience at the youth and high school level as well as one year of collegiate pitching coach experience.

I am looking for a position that allows me to continue searching for the best ways to reduce the risk of injury and maximize athlete performance while collaborating with people across biomechanics, strength & conditioning, rehabilitation, & athlete development.
